PLENARY SPEAKERS

Marek Darecki
"New era of Polish industry
– transformation of aerospace"

Ke Lu
"Can property trade-offs in materials
be broken via nanostructuring?"

Antoni Tomsia
"Bioinspired materials
and how they will change our lives"

Patrice Turchi
"What are 'first-principles'
methodologies good for?"

Alan Windle
"Carbon nanotube materials:
a new sort of stuff?"

FEMS EUROMAT 2015

European Congress and Exhibition on Advanced Materials and Processes

The **European Congress and Exhibition on Advanced Materials and Processes** (**EUROMAT 2015**) will take place in Warsaw, Poland, 20-24 September 2015.

EUROMAT2015 marks the first time that a conference in this series has been held in Poland. Warsaw, Poland's capital and largest city, is an economic, political, and cultural centre. It is a city with a rich history, and a wonderful combination of modern urban development and historical architecture.
We hope that you will take this opportunity to join us at this exciting and important conference and to visit Warsaw. We look forward to seeing you at EUROMAT in September 2015.

TOPIC AREAS:

A: Functional Materials
B: Structural Materials
C: Processing
D: Characterization and Modelling
E: Energy and Environment
F: Biomaterials and Healthcare
G: Education, Strategy and Technology Transfer

The Scientific Programme of the Congress represents the very heart of the meeting and we are sure that your involvement will make an important contribution to the success of this Congress
